THANK YOU TO OUR PARTNERS AND SPONSORS

On behalf of the Association of Obstetricians and Gynaecologists of Uganda (AOGU), we would like to say thank you for the support you rendered that led to the success of the Annual Scientific Conference and Annual General Meeting held, 25th to 26th September 2015 at Protea Hotel, Kampala. The conference theme was: "**Professionalism and Partnership in Reproductive Health: The Key to Sustainable Development**". AOGU has been a key partner with government and other stakeholders to improve the health of the women in Uganda and quality reproductive health in general.

During the conference, many topics concerning capacity building, advocacy for reproductive maternal & newborn care health, quality assurance among others were presented. We believe that the discussions contributed to more knowledge and best practice that needs to be scaled up as we continue with the struggle to reach the targets.

I wish to extend my sincere thanks to our partners who supported us in kind and financially to make the AOGU conference a reality particularly; Ministry of Health, Engender Health, Save the children, UNFPA, JHPIEGO, PACE and Pharmaceutical companies among others.

I would also once again like to thank the Organizing committee, in a special way, whose tireless and selfless efforts resulted in a great event. It is our hope that most people found the conference very informative and will use the knowledge acquired to improve the health of the women in Uganda.

Yours sincerely,

Dr. Kiggundu Charles
Immediate Past President AOGU
